

Strategic Growth Through AI

Leveraging Generative AI for Operational Excellence at PlanITROI

COMPANY OVERVIEW

PlanITROI at a Glance

\$26.1M

Annual Revenue

115

Employees

87

Countries Served

24

Years Operating

Leading IT Asset Disposition provider transforming asset recovery into revenue generation while advancing digital inclusion and sustainability.

Recent Investment: \$9M Center of Excellence facility in Youngsville, NC with 1M units/year capacity.

The Opportunity

First-Mover Advantage

ITAD industry lags in AI adoption
—creating differentiation
opportunity

Efficiency Gap

38-person sales team generating
\$687K per rep vs. \$1-2M+
industry benchmark

Margin Expansion

Transform from 12-15% to 35-45% EBITDA margin through AI
optimization

Projected EBITDA Uplift

\$3.3M-\$4.2M

Annual Savings Potential

Representing 100-135% increase in bottom-line profitability

SG&A Functions

25-30% reduction: \$2.6M-\$3.1M annually

Logistics & Supply Chain

10-15% reduction: \$420K-\$630K annually

Customer Service

20-30% reduction: \$320K-\$480K annually

AI Applications Across Functions

Finance & Accounting

Automated reporting, revenue-share calculations, invoice processing

Impact: 25-35% labor reduction, \$413K-\$578K savings

Sales & Marketing

Proposal automation, lead scoring, CRM intelligence, content generation

Impact: 30-40% efficiency gain, \$950K-\$1.2M savings

Customer Service

AI chatbots, automated certificates, 24/7 support, self-service portals

Impact: 50-60% inquiry deflection, \$132K-\$198K savings

Supply Chain

Route optimization, demand forecasting, predictive asset valuation

Impact: 10-15% cost reduction, \$420K-\$630K savings

PHASE 1

Fast Wins: First 90 Days

01	02	03
Executive AI Training	Sales Proposal Automation	Finance Reporting Automation
One-day intensive workshop for leadership alignment	Reduce proposal time from 15-20 hours to 3-5 hours	Save 30-40 hours monthly on board packages
04	05	
Customer Service Chatbot	AI Governance Framework	
Deflect 40-50% of Tier 1 support tickets	Establish policies, standards, and ROI tracking	
Investment	Expected ROI	Payback Period
\$100K-\$165K	\$650K-\$900K annually (6-9x return)	2-3 months

3-Year Financial Transformation

Cumulative Impact

Revenue growth without proportional headcount increase

EBITDA margin expansion from baseline

Total 3-Year Investment: \$1.67M-\$2.45M

Net EBITDA Improvement: \$5.5M-\$9.0M after all investments

Revenue Enhancement Beyond Cost Savings

Improved Asset Pricing

AI-powered dynamic remarketing valuation

+\$728K-\$1.1M annually

Sales Acceleration

15-20% faster deal closure through automation

+\$1.3M-\$1.8M incremental

Marketing-Led Growth

3-5x content production, improved nurture

+\$2.1M-\$3.1M over 18 months

Retention Improvement

AI-powered renewal prediction

+\$520K-\$780K annually

 **Total Revenue Uplift Potential:** +\$4.7M-\$6.8M representing 18-26% revenue growth over 18 months

RISK MANAGEMENT

Mitigation Strategies

Fragmented Adoption

Establish AI Center of Excellence with enterprise architecture oversight

Data Quality Issues

Phase 0 data audit; invest in Master Data Management

Change Resistance

Transparent "AI augments, doesn't replace" communication; reskilling programs

Compliance & Privacy

Legal review of vendors; SOC 2 Type II requirements; annual audits

The Time to Act Is Now

Strategic Imperative

AI is not a speculative bet—it's the force multiplier that enables PlanITROI to serve 2x the customers, deliver 3x the environmental impact, and generate 3-4x the EBITDA.

- First-mover advantage window is narrow
- Transform from margin-constrained to technology-enabled leader
- Scale mission-driven impact through operational efficiency

"The question is not whether to adopt AI, but how quickly PlanITROI can outpace competitors who are just beginning to recognize its potential."
